Career Objective

Given my extensive experience and proven knowledge of application development, web design, and programming I am aiming to leverage my skills to successfully fill the Software Developer role at your company.

Education

Bellevue College (3.6 GPA)

Graduating class of 2022 // Bellevue, WA

Bachelor of Applied Science in Information Systems and Technology with a focus in Application Development.

Completed Courses:

- Advanced Web Development
- Object Oriented Programming
- Server-side Web Development
- Client-side Programming
- Enterprise Data Applications
- Data Structures and Algorithms
- Software Testing

Work

Bartender // Red Rum Tike Bar // March '18 – August '20

- Single handedly managed an 18-seat bar and 10 tables during the companies crowded weekly Karaoke night.
- Establish rapport with guests, cater to all requests, and resolve all service issues in a timely manner.

Sales Associate // Nordstrom // October '14 – August '18

- Provided the highest quality of service and increased revenue by upselling customers, earning 'Top-five sales associate' during the annual Anniversary Sale.
- Trained five employees over the course of 4 years.
- Each Anniversary Sale I am invited back to takeover a lead sales role during their high volume season.
